

**Deltek Costpoint Partner**

# Costpoint Manufacturing

Enhance profitability and elevate project success for government contractors using Costpoint Manufacturing. Introduce efficiency and digitalization to the entire operational workflow, spanning from bidding to shipment. Consolidate all information with financials in a secure system, transforming manual processes into real-time digital data capture, storage, and analysis down to the project level.

## Benefits Include:

### Digitalize Processes

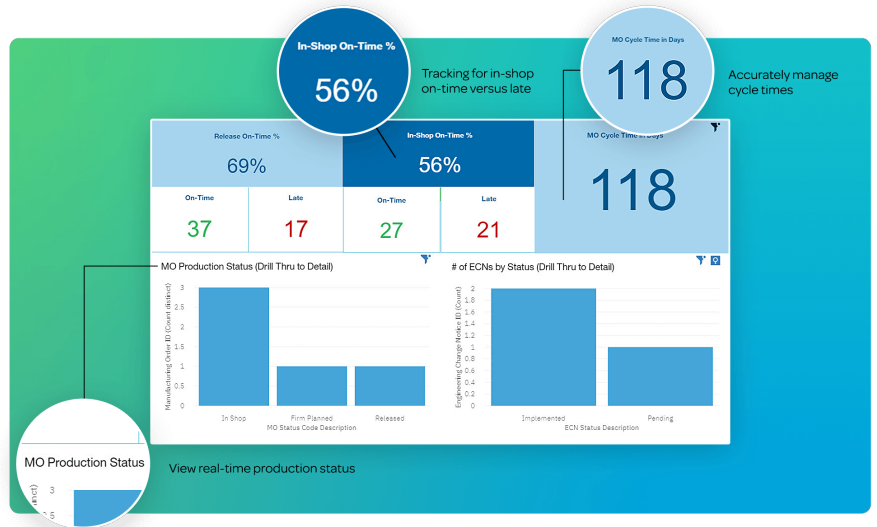

Withstand interruptions using modernized, flexible, and integrated automation for improved visibility into changes and process control.

### Speed Up Cycle Time

Connect and automate finance and production processes for enhanced accuracy, actual costs, and audit preparedness.

### Stricter Compliance Support

Leverage contract flow downs and enhance security measures at organizational, project, and part levels. Automate traceability for every transaction.

## Features Include:

**Enhanced Manufacturing Business**

**All Data in One**

**Compliance, Security and Traceability**

**Be Proactive with Cost and Quality Control**

**Simplify Pay Rules with Shop Floor Time**
