

Deltek Costpoint Partner

Deltek Costpoint for Government Contractors

Enhance your project success with cutting-edge ERP software designed specifically for government contractors.

Forty years of industry expertise have gone into building Deltek Costpoint, making it the leading choice for government contractors of all sizes. This all-in-one solution seamlessly connects your project data and processes while introducing time-saving automation and innovation throughout the entire project lifecycle. From accounting to the shop floor, Deltek Costpoint is here to revolutionize your operations.

Benefits Include:

Manage Projects & Finances

Bring time-saving automation across the entire project lifecycle, from accounting to shop floor in a solution purpose-built for Government Contractors.

Gain Actionable Data

View data in real-time and drill down to the details for accurate project analysis utilizing AI-based business intelligence Dashboards.

Audit Readiness

Save up to 80% of time preparing for audits while meeting necessary government accounting and cybersecurity regulations.

PCI's Costpoint Services Include:

Software Implementation

Since 2009, PCI has been transforming the government contracting industry in partnership with Deltek. We have completed over 900 Costpoint and Costpoint add on implementations.

Managed Accounting Services

From cash management, journal entry to tax planning, audit support, and complex financial reporting - PCI is your go-to GovCon expert for outsourced accounting support.

Consulting

We provide a range of services to ensure your Costpoint solutions run smoothly. From project set up and cost pools to indirect rates and financial intelligence, we ensure long-term support and success with our customized solutions.

API Integrations

Take your Deltek investment to the next level with PCI. We specialize in connecting cutting-edge integrations that are designed to enhance your Deltek Costpoint experience.
