

# DELTEK COSTPOINT & ADP

The ADP® and Deltek Costpoint integration connects project-based time and labor data directly to ADP payroll — giving project-driven organizations a seamless flow from time sheet to pay.

Validated labor hours and earnings move automatically from Costpoint Time & Expense into ADP, eliminating duplicate data entry and reducing the risk of costly payroll errors.

With standardized, ADP-ready file formats and batch processing, the integration scales to support large and distributed workforces while improving compliance and audit readiness.

## KEY CAPABILITIES

- **Automated data transfer**  
Labor hours and earnings move from Costpoint to ADP automatically.
- **Flexible pay mapping**  
Map Costpoint pay types to ADP payroll codes.
- **Broad earnings support**  
Overtime, bonuses, and leave categories.
- **Built for scale**  
Batch payroll processing for large workforces.
- **ADP-ready formats**  
Standardized EPIP / CSV files compatible with ADP.

## BUSINESS VALUE

- ✓ Reduce manual data entry and payroll errors.
- ✓ Accelerate payroll processing cycles.
- ✓ Improve compliance and audit readiness.
- ✓ Greater visibility into project-based labor costs.
- ✓ Scale payroll operations as you grow.
